Interested?

Inscription required:

- at school "conserjería"*
- by phone: 968 347606*
- by email: infanteeoimurcia@gmail.com*

What are you going to see?

We will introduce the city and its Muslim origin. We will start admiring the Baroque south façade of the Episcopal palace.

Then we will move to Plaza del Cardenal Belluga where you may admire the Bishop palace Rococo North façade and the breathtaking baroque façade of the Cathedral: a wonderful combination of sculpture and architecture whose complex iconographic program was designed to tell us about the rich history of this historical diocese.

We will enter the church to attend a live lesson of the history of different Christian artistic movements and styles: from international Gothic to Elizabethan, plateresque, Italian Renaissance, Neoclassical and genuine Spanish baroque.

We will visit the Church Museum of San Juan de Dios, a superb example of late Baroque and Italian Rococo with some works of the famous XVIIIth century sculptor Francisco Salzillo.

Then we will continue to calle Trapería, Santo Domingo and the romantic Romea theatre. The quaint picturesque narrow streets and squares of the medieval city whose names still reflect the medieval guilds there established will take us to ancient history at each step.

We will continue to las Flores, stop at Muslim rampart of Verónicas, cross Manterola bridge and back to the initial point.
